

# FRANK COLUCCIO CONSTRUCTION CO.

Requests subcontractor and material quotes from subcontractors and suppliers, including Disadvantaged, Women, and/or Minority Business Enterprises, for the following project:

**2010 Windermere Basin CSO Retrofit**  
**Project No. 2011-030**  
**Owner: City of Seattle**  
**Dept: Seattle Public Utilities**

**Bid Date: September 14, 2011 @ 2:00pm**

**FRANK COLUCCIO CONSTRUCTION COMPANY**  
9600 MLK WAY SOUTH SEATTLE, WA 98118  
PH: 206-722-5306 FAX: 206-725-4764

**SCOPE OF PROJECT:** This retrofit project will replace the existing hydrobrake in MH 017-253 with a new automatic sluice gate. An ultrasonic level sensor will be installed in downstream MH 017-059 (inside the private Windermere Park). The flow depth in this downstream manhole will control when the gate opens/closes. A new larger electrical cabinet will be installed to house the instrumentation/controls for the sluice gate, a new SCADA cabinet, flow monitoring equipment, circuit breaker and SCL meter.

Documents are available on [www.ebidexchange.com](http://www.ebidexchange.com)

**REQUIRED:** Intent/ Affidavit, Certified Payroll, EEO reports, Certificate of Insurance

***We are an Equal Opportunity Employer***
