	Name	Telephone	Email

The Transportation Improvement Board is a grant agency. Less than two percent of its budget is for operating expenses (staff and overhead). It has only small and sporadic procurement needs. TIB works with DES contracting when going out for competitive bids and state master contracts for many of its asset purchases. In order to increase participation of small minority-, women- and veteran-owned firms, the Transportation Improvement Board plans to:

- Proactively identify procurement needs
- Work with DES contracting to ensure that procurement needs are open to OMWBE businesses
- Advertise opportunities with OMWBE
- Learn more about OMWBE's services and outreach
- Monitor procurement spending
