ACTIVE* PROFESSIONAL DEVELOPMENT SERIES

AUGUST 25TH @ 6PM

SEATTLE COMMUNITY COLLEGE – GEORGETOWN CAMPUS

Date	Time	Location
8/25/15	6:00pm	6737 Corson Ave South, Seattle, WA

WORKSHOP OBJECTIVES

- ✓ *Sharing best practices around blueprint reading in a digital environment, streamlined identification, GO/NO GO Criteria, what to consider in mitigating risk and trimming the budget.*
- ✓ *Matching participants with right sized packages on existing projects and pursuits as well as providing ongoing coaching specific to the Sound Transit Roosevelt Station N150 project.*

Hoffman Construction, the largest locally owned GC/CM contractor in this region has secured multiple GCCM and other projects across the state. **Hoffman** is a private for profit general construction corporation that performs work throughout the Pacific Northwest with offices in Seattle and Portland. Their talented team has constructed some of the largest and most recognized structures in the Northwest, including but not limited to the **Experience Music Project and Brightwater Treatment Facility**. Hoffman pursues opportunities from \$500 million to over \$1 billion annually in public and private projects and is the State of Washington leader in GC/CM projects.

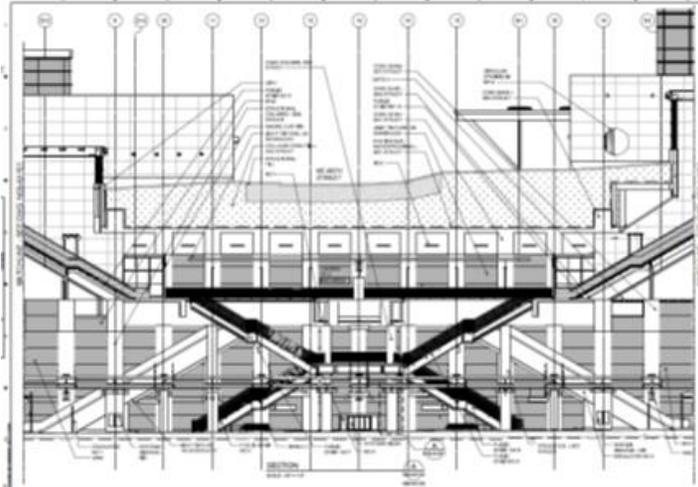

The **Entrepreneurial Institute of Washington** is a non profit small business professional development with a focus on capacity building with small, M/W/DBE firms. The **Active* Professional Development Series** was developed in response to comments made by small business owners over the last two decades concerning the benefit of exposing business owners, their workforce and students to opportunities on real projects.

This workshop will complement the *Estimating in a GC/CM Environment* as well as the *budgeting and proposal development* process. This webinar will be focused around **Blueprint Reading in a Digital Environment** and learning to master the tools to streamline the process of project identification and related pursuits.

ACTIVE* PROFESSIONAL DEVELOPMENT SERIES
