Parks' plan to increase participation of small minority-, women- and veteran-owned firms:

- Continue to solicit bids for goods and services through WEBS and send separately solicitations to M/WBE vendor community.
- Continue to send procurements opportunities (notices) to the Department of Veterans Affairs and the Office of Minority and Women's Business Enterprises for posting to their websites.
- Continue to advertise procurement opportunities in the county newspaper of record, the Daily Journal of Commerce, and M/WBE newspapers.
- Continue to ask for M/WBE subcontractor certification information as part of contract requirements.
- Continue to provide procurement and contract training to agency staff, including information on minority, women, and veteran owned businesses.
- Provide quarterly report to the Assistant Director of Administration on State Parks' Diversity Business participation with a comparison to the prior year.
- Continue to have procurement staff from State Parks attend the Annual Department of Enterprise Services tradeshow and training conference.
