

Vendor Training Videos

Below is the path to access the training for businesses who are required to use Access Equity because they were awarded a contract with a Washington State agency or educational institute.

The trainings are required in the [sample contract language](#) and meant to give the vendors information on how Access Equity works and what contract compliance reporting entails.

Once logged in, expand the **Help & Support** section in the left-hand navigation bar and open the **Video Library**. Under **Core Training – Vendor**, the two training videos are called **Contract Compliance Reporting** and **Introduction to the System**.

The image shows a screenshot of the Access Equity user interface. On the left is a vertical navigation menu under the heading "Help & Support". The menu items are: Contact Support, Account Summary, User Manual, Other Help Guides, Training Classes, Document Library, Video Library (highlighted with a red box), Release Library, Wish List, Submit Feedback, Report a Problem, Trust Center, System Status Board, Email Test, and About B2Gnow. To the right of the menu is a content area titled "Core Training - Vendor". This area contains three blue, underlined links: "Contract Compliance Reporting", "Introduction to the System", and "Online Certification Application". The first two links are enclosed in a red rectangular box.
