

CONCOURSE LOW VOLTAGE UPGRADES AT SEA

Pre-Bid Meeting + Site Walk

Wednesday July 24th 2024 + Thursday July 25th 2024

BID PACKAGE OPPORTUNITIES

Join us and learn more about upcoming bid-packages for the Concourse Low Voltage project at Seattle Tacoma International Airport! The project encompasses renewing and replacing electrical equipment throughout Concourses B, C, and D. This includes replacement of existing panelboards, motor control centers, switchboards, feeders, meters, and transformers. New electrical closets for relocated panels and a new electrical room in Concourse D will be installed. Fire protection and HVAC systems will be upgraded as necessary to support electrical equipment. EC Electric is serving as the ECCM on the project.

EVENTS

Pre-Bid Virtual Meeting: Wednesday 24th @ 10 AM

Discuss timing of packages, scopes of work available, requirements, and share information about how to connect with our organization for future opportunities. *All businesses including women and minority owned, are encouraged to attend to learn more.*

Pre-Bid Site Walk: Thursday 25th @ 12:30 PM

Attending the site walk is strongly encouraged for those intending to bid. Please see the bid manual for details.

DOCUMENTS

Bid Documents, including the full invitation to Bid, Plans, Specifications and Addenda will be available beginning July 15, 2024 [on line here.](#)
