Does your organization
need an indirect cost rate
to ensure success in
government contracting?

INDIRECT COST RATE WORKSHOP

Work with a CPA that specializes in indirect cost rates to learn the basics. The CPA will walk you through your financial statements to understand how indirect cost rates are determined and how they help your business.

Certified OMWBE Transportation related firms in select counties will have the opportunity to work one-on-one with the CPA after the workshop to ensure your business completes the indirect cost rate process.
