## RFP CHECKLIST

## Nine Critical Things to Keep in Mind When Responding to this RFP:

1.	<b>Read the </b> <u>entire</u> <b>document.</b> Note critical items such as: mandatory requirements; supplies/services required; submittal dates; contract requirements (i.e., contract performance, insurance requirements, performance and/or reporting requirements, etc.).
2.	Note the procedures for communication with the university during the RFP process. All communication during the RFP process must be in writing via email and/or through WEBS. Respondents should not contact university personnel outside of the opportunity provided in the document.
3.	Take advantage of the "question and answer" period. Submit your questions to the RFP Coordinator by the due date listed in the Schedule of Procurement Activities section and view the answers given in the formal "addenda" issued for the RFP. All addenda issued for an RFP are posted on WEBS and will include all questions asked and answered concerning the RFP.
4.	Follow the format required in the RFP when preparing your response. Provide point-by-point responses to all sections in a clear and concise manner.
5.	Provide complete answers/descriptions. Read and answer all questions and requirements. Don't assume the university or the evaluation committee will know what your company's capabilities are or what items/services you can provide even if you have previously contracted with the university. The proposals are evaluated based solely on the information and materials provided in your response.
6.	Terminology of Parties. Throughout this RFP document, the terms "Proposer, Vendor, Responder, Respondent, and Contractor may be used synonymously unless expressly identified in a specific manner. Western Washington University may also be identified as "Campus" or "University".
7.	Before submitting your response, check WEBS at: <a href="https://pr-webs-vendor.des.wa.gov/">https://pr-webs-vendor.des.wa.gov/</a> to see whether any addenda were issued for the RFP.
8.	Review and read the RFP document again to make sure that you have addressed all requirements.
9.	Submit your response on time. Note all the dates and times listed in the Schedule of Procurement Activities section and be sure to submit all required items on time. Late proposal responses are <i>never</i> accepted.

This checklist is provided for assistance only and should not be submitted with Respondent's Response.

# SECTION #4 BACKGROUND / SCOPE OF WORK

## 4.1 BACKGROUND

Western Washington University is an active member of the Orbis Cascade Alliance, a regional consortium of 37 academic libraries across Washington, Oregon, and Idaho. We participate in group purchasing via the Alliance for many of our subscription-based resources in order to more efficiently and effectively support research and teaching across the university. We have a number of package deals from major academic presses, many in conjunction with the Orbis Cascade Alliance:

Publisher	Core Titles	Unsubscribed but Included Titles	Paid via Subscription Agent / Direct	Orbis Cascade Alliance (Y/N)
American Chemical Society (ACS)	0	65	Direct	Y
Cambridge	421	0	Direct	Y
Duke	53	0	Direct	Y
Elsevier Science Direct	80	0	Direct	N
Emerald	200	0	Direct	N
Oxford	26	0	Subscription Agent	N
Sage	25	238	Subscription Agent	N
Springer	632	0	Subscription Agent	Y
Taylor & Francis	98	1919	Subscription Agent	N
Wiley	206	1231	Subscription Agent	Y

The Libraries uses Alma from Ex Libris as its integrated library system.

#### 4.2 SCOPE OF WORK

Western Washington University Libraries is reviewing sources of supply for serial subscriptions. Our intent is to place the majority of our periodical and database subscriptions together with a smaller proportion of our standing orders with the vendor that can best meet our service and pricing needs. However, we do not anticipate being able to place all of our subscriptions with a single vendor and we reserve the right to place subscriptions with other vendors, with consortia, or directly with the publisher at the sole discretion of the Western Libraries. Situations where we might wish to use alternate supply channels include, but are not limited to:

- Titles that the successful bidder is unable to supply, or is only able to supply at a substantial premium
- Foreign language materials in non-Roman scripts and/or from areas of the world with a history of supply problems
- Package deals or databases where the terms of the deal require a particular vending channel.

Total dollar volume is difficult to predict, but our target is to place \$500K-\$1M annual spend with the successful bidder. This is only an estimate and is not guaranteed.

The vendor should provide services for serials published worldwide regardless of format (print, electronic, or other). The vendor should be prepared to handle all types of serial, periodical, and/or subscription publications, including but not limited to:

- Periodicals
- Databases
- Standing orders
- Memberships
- Indexes and supplementary volumes
- Publisher packages

There are a range of systems and services beyond subscription fulfillment that we may wish to utilize in order to improve our serials management and/or gain operational efficiencies; we understand that some of these systems and services will involve additional costs over and above the baseline service charges. The availability, cost, and capabilities of these optional services and systems will inform our choice of vendor. One goal in consolidating our serials business is to continuously improve our serials management processes, so we are particularly interested in vendors who can propose and facilitate process improvement.

## 5. PROPOSAL CONTENTS

All proposers must provide the required information requested in this section. Information must be presented in a clear, concise and complete format. - j. Submit full details of the terms for default including the other party's name, address, and phone number. Present the Contractor's position on the matter. # SECTION #6 EVALUATION AND CONTRACT AWARD

#### 6.1 EVALUATION

Responsive proposals will be evaluated strictly in accordance with the requirements stated in this solicitation and any addenda issued. The evaluation of proposals shall be accomplished by an evaluation which will determine the ranking of the proposals.

The final selection depends upon both the evaluation criteria and the cost of the proposed solution. The process is designed to award this procurement not necessarily to the Proposer of least cost, but rather to the proposal which best meets the requirements of this RFP.

#### **6.2 EVALUATION CRITERIA**

Evaluation and selection of a firm will be based on the information submitted in the proposals plus any required oral presentations or demonstrations. Award criteria shall include all factors identified in RCW 43.19.1911 and the requirements provided in this RFP, Section 4.2 (Scope of Work), and Section 5 (Required Responses of all Proposers). No OMWBE preference will be included in the evaluation of bids/proposals, no minimum level of OMWBE participation shall be required as a condition for receiving an award and bids/proposals will not be rejected or considered non-responsive on that basis.

EVALUATION CRITERIA	CONSIDERATIONS	POINTS
Executive Summary	The ability, capacity, and skills of the Vendor to perform the contract or provide the service required. The character, integrity, reputation, judgment, experience, and efficiency of the Vendor. Such other information as may be secured having a bearing on the decision to award the contract.	20
Features & Functionality	How well the solution meets the requirements and desired features and functionality	50
Fees & Pricing	Best value	30
Total Possible Points		100

Points will be awarded based on the completeness of the written response and the demonstrated ability to best serve the needs and goals of the University.

Supplemental Features and Services will be weighed after the evaluation of Minimum Requirements and used to compare proposals that have met the Minimum Requirements. Supplemental Features and Services evaluation criteria and weighting:

## 6.3 EVALUATION OF TECHNICAL/FUNCTIONAL REQUIREMENTS

The sections of the proposal that respond to the functional, technical and any management requirements including company information and project or timeline plans will be evaluated. Deviations will be defined as material, which means that a proposal will be disqualified in its entirety, or immaterial, which means the deviation may, at our option, be accepted. The University reserves the right to waive minor deficiencies in a proposal. The decision as to whether a deficiency will be waived or will require rejection of a proposal will be solely within the discretion of the University.

### 6.4 <u>PRESENTATION</u>

After evaluation of the proposals, finalist(s) may be asked to make oral presentations and/or conduct a phone interview. Contract award will be made to the proposer who best meets the university's overall requirements and criteria.

## 6.5 DEBRIEFING OF UNSUCCESSFUL RESPONDENTS (Proposers)

Upon request, a debriefing conference will be scheduled with an unsuccessful Proposer. Discussion will be limited to a critique of the requesting Contractor's proposal. Comparisons between proposals or evaluations of the other proposals will not be allowed. Debriefing conferences may be conducted in person or on the telephone.

### 6.6 PROTEST PROCEDURES

This procedure is available to Contractors who submitted a response to this solicitation document and who have participated in a debriefing conference. Upon completing the debriefing conference, the Contractor is allowed three (3) business days to file a protest of the acquisition with the RFP Coordinator. Protests may be submitted by via email to the RFP Coordinator at Purchasing.Department@wwu.edu, but should be followed by the original document.

Contractors protesting this procurement shall follow the procedures described below. Protests that do not follow these procedures shall not be considered. This protest procedure constitutes the sole administrative remedy available to Contractors under this procurement.

All protests must be in writing and signed by the protesting party or an authorized Agent. The protest must state the grounds for the protest with specific facts and complete statements of the action(s) being protested. A description of the relief or corrective action being requested should also be included. All protests shall be addressed to the RFP Coordinator.

Only protests stipulating an issue of fact concerning the following subjects shall be considered:

- A matter of bias, discrimination or conflict of interest on the part of the evaluator.
- Errors in computing the score.
- Non-compliance with procedures described in the procurement document or University policy.

Protests not based on procedural matters will not be considered. Protests will be rejected as without merit if they address issues such as: 1) an evaluator's professional judgment on the quality of a proposal, or 2) University's assessment of its own and/or other agencies needs or requirements.

Upon receipt of a protest, a protest review will be held by the University. The Director of Purchasing, Contracts and Support Services, or his delegate, an employee who was not involved in the procurement will consider the record and all available facts and issue a decision within five business days of receipt of the protest. If additional time is required, the protesting party will be notified of the delay.

In the event a protest may affect the interest of another Contractor that submitted a proposal, such Contractor will be given an opportunity to submit its views and any relevant information on the protest to the RFP Coordinator.

The final determination of the protest shall:

- Find the protest lacking in merit and uphold the University's action; or
- Find only technical or harmless errors in the University's acquisition process and determine the University to be in substantial compliance and reject the protest; or
- Find merit in the protest and provide the University options which may include:
- Correct the errors and re-evaluate all proposals, and/or
- Reissue the solicitation document and begin a new process, or
- Make other findings and determine other courses of action as appropriate.

If the University determines that the protest is without merit, the University will enter into a contract with the apparently successful Contractor. If the protest is determined to have merit, one of the alternatives noted in the preceding paragraph will be taken.

Violation - Any Successful Vendor who is in violation of this equal opportunity and nondiscrimination clause shall be barred from receiving awards of any contract or purchase order from Western unless a satisfactory showing is made that discrimination practices have terminated and that a recurrence of such acts is unlikely. Any violation of this provision shall be considered a material violation of this Agreement and shall be grounds for cancellation or suspension, in whole or in part, of this Agreement by Western.

The percentages related to each respective state are provided in the Reciprocity List located at https://des.wa.gov/services/contracting-purchasing/reciprocal-preference and apply only to Bids and Proposals received from those states listed.

The appropriate percentage will be added to each Bid or Proposal bearing the address from a state with in-state preferences rather than subtracting a like amount from Washington State Bidders.
