### 2021 UTC Supplier Diversity Inclusion Plan

Agency's plan to increase participation of certified small minority, women, and veteran owned firms:

The Utilities and Transportation Commission (UTC) is committed to continue with its current plan by doing the following:

1. The UTC notes the bid price in WEBS offering OMWBE companies a fair chance in identifying contracts compatible with their company's resources.
2. The UTC checks the current list of OMWBE companies before making purchases off the master contract.
3. When asked the UTC coordinates with companies not certified as OMWBE by forwarding resource information about getting certified that is available.

The UTC will continue to conduct the following activities to ensure that companies are informed of OMWBE inclusion in state purchasing by providing contact information to Procurement Technical Assistance Center (PTAC) and OMWBE during our quarterly Household Goods training, and keeping information in our reception area as well as on our public annual report website. The UTC is optimistic in our plan to expand the OMWBE program with our efforts.

The UTC has very limited contracting opportunities available in the normal course of business. When opportunities do occur, they are in highly specialized arenas such as expert witnesses for testimony, specialists are in the field of energy regulation etc. that support the UTC's book of work.
