Agency's plan to increase participation of certified small minority, women, and veteran owned firms:

The Washington Traffic Safety Commission will continue to encourage contractors that we contract with to register with OMWBE, we also make sure that when requests for proposals are put into WEBS they are available to small minority, women and veteran owned firms. Most of our contracts are for at least three year periods so do not have the ability to change our participation percentages from year to year. Also, a majority of our funds are federal funds distributed in grants to city, county, state and non-profits for traffic safety type projects which doesn't allow for increased participation unless the non-profit that applies is registered with OMWBE.
